

Access to electronic databases

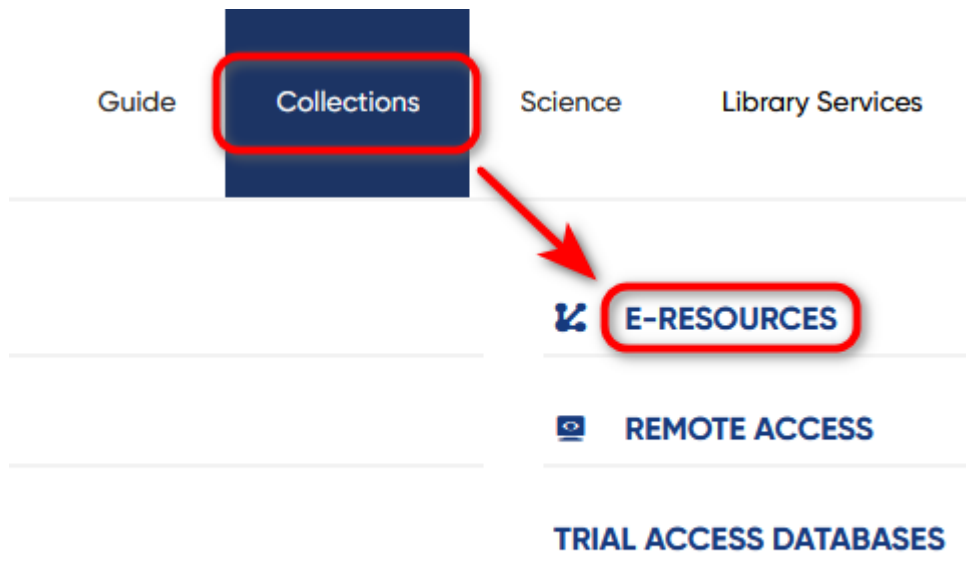

Access to the electronic databases subscribed by UKSW is carried out using the **Hidden Automation Navigator (HAN) system**, using the Microsoft365 UKSW login.

There is currently a transitional period in which remote access, as well as from the UKSW network, requires login via Microsoft365 UKSW. After the transition period, access from the University network will not require a login.

The current remote access platform, Pulpit UKSW, will be deactivated.

In order to use e-resources in this way, you need to:

1. Go to biblioteka.uksw.edu.pl/en/, choose **Collections**, and then **E-RESOURCES** tab.

2. Choose a database and click on its name.
